Hyacinth Glasses

PATENT

Hyacinths grown in glasses of water are charming ornaments for parlor windows, and the ease and success in flowering bulbs in this way adds greatly to the popularity of not only Hyacinths, but Polyanthus, Narcissus, Amaryllis Formosissima and other bulbs, which can be grown in the same manner. We offer both the plain cheap glasses, and the more expensive and handsomely decorated ones; with care they last for years, and can be used for cut flower vases when desired.

Patent Hyacinth Glass. This is in two parts, the inner contains the bulbs and roots, and can be removed without injuring them, to refill with water. Each, 35c.; \$3.50 per dozen.

Tye's Shape Hyacinth Glass. An improved shape—not so easily tipped over—they come in various plain colors. 15c. each; \$1.50 per dozen.

Tall or Belgium Hyacinth Glass. This is a favorite style. In shape it is similar to the Patent, but plain glass in various colors. 15c. each; \$1.50 per dozen.

TYE'S SHAPE

Seeds for Present Sowing

SUNSET SEED AND PLANT CO.

San Francisco, Calif.

Choice Named Hyacinths

FOR CULTURE IN POTS, GLASSES OR THE GARDEN

CULTURE. For growing in pots. Plant from September to December, using a light loam mixed with leaf mould and well decomposed manure. Cover the bulbs so that the tops will just show, and after watering well, place in a cool, dark place out of doors, where they should remain until the pots are full of roots and the tops have sprouted about an inch, which will be in about six or eight weeks. They may then be removed indoors to a sunny situation and plentifully supplied with water at the roots.

For growing in glasses. Allow the water to just touch the base of the bulbs, and place them in a dark closet or cellar where the temperature is about 50°. Expose gradually to light and sun when the glasses are well filled with roots. Change the water as it becomes impure, drawing the roots entirely from the glass, and rinsing in clean water. Be particular to always keep the water to a level with the base of each bulb.

For growing in the garden. Bulbs may be planted any time from September to December. They require a light, rich soil and the crown of the bulb should be three to five inches below the surface; set six inches apart. Where the ground becomes frozen cover with straw or leaves to the depth of about three inches, removing the covering early in spring.

If ordered by mail please add fifteen cents per dozen for postage.

SINGLE HYACINTH

Single Hyacinths

	EACH
Alba Maxima. Pure white, fine.....	\$0 20
Amy. Vivid crimson scarlet.....	10
Baron Von Thuill. Deep blue, large compact truss of bloom. Fine for early forcing.....	10

“ White	75	5 00	“ White	75	5 00
“ Yellow, all shades	80	6 00	“ Yellow	90	6 00

Early White Roman Hyacinths

This beautiful and very valuable variety, if planted in September and gently forced, will bloom in November, or flowering may be retarded till Christmas by keeping in a cool place. The flowers which are smaller than those of the ordinary Hyacinth are produced in great profusion, each bulb throwing up three or four spikes of delicately scented, clear white blossoms; highly recommended for parlor decoration.

Extra large bulbs, 10 cents each; 60 cents per dozen; \$3.50 per hundred.

Tulips

This class of bulbs are of easy culture, flowering freely in almost any location, producing as fine flowers in the city garden as in more favored places. Double and single tulips, mixed and planted together, maintain a more extended display than if planted separately, their continued beauty and great diversity of shade and color never failing to please. Cultural treatment similar to Hyacinths, except that the bulbs being smaller, must not be planted quite so deep.

If ordered by mail please add five cents per dozen for postage.

A GROUP OF TULIPS

Double Tulips

	EACH	PER DOZ.
Blue Flag. Violet blue.....	\$0 05	\$0 50
Duc Van Thol. Bright red	05	40

Yellow Prince. Rich pure yellow....	05	50

One bulb each of above ten distinct Single Tulips for 40c.

Splendid Mixed Varieties of all colors, per doz. 25c., per hundred, \$1.50.

Parrot Tulips

These are of singularly picturesque appearance, and exceedingly showy on account of their curiously lacinated petals and richly varied shades of beautiful colors in the same flower.

Splendid Mixture, from many named sorts, per doz., 25c., per hundred, \$2.00.

Crocuses

This is one of our earliest Spring flowers and on account of its varied colored blossoms, is remarkably effective. The more thickly crocuses are planted the finer is the effect produced—say in clumps of six, twelve or more bulbs, or in beds of one hundred to five hundred bulbs, either in separate colors or mixed. With ordinary care they will bloom freely in any sitting room window.

CULTURE. Plant the bulbs two inches deep and two or three inches apart. When grown in pots plant thickly and treat as in the cultivation of the hyacinth.

 If ordered by mail please add fifteen cents per hundred for postage.

CROCUSES

	PER DOZ.	PER 100
Albion. Largest dark purple.....	\$0 20	\$1 00

Yellow. " "	20	1 00

Extra Fine Mixed Crocuses of all colors, selected strong bulbs, per dozen, 15c.; per hundred, 75c.; per thousand, \$6.00.

Amaryllis

The bright colors and handsome form of the Amaryllis make it very effective both for greenhouse and parlor decoration, while its cultivation is so simple that it can be grown by anyone. The soil most suitable is a good loam, with one-fourth part of leaf mould and a proportion of sand; water moderately until the plants show indications of flowering. Frequent disturbance of the roots should be avoided.

	EACH		EACH
Aulica Platypetela. Scarlet, tipped green..	\$1 50	Johsonii. Crimson, striped with white.....	75
Belladonna. Dark rose and white.....	25	Longiflora Alba. Fine white.....	40
Belladonna Major. Extra large form of preceding	50	Lutea. Beautiful golden yellow.....	15
Formosissima. Rich crimson.....	20	Purpurea. (Vallota)	30

One bulb each of the above eight magnificent sorts will be sent for \$3.50.

Freessias

These are much prized on account of their graceful form and delightful fragrance. They are of the easiest possible culture and a pot of five or six bulbs will be sufficient to perfume a large room. As cut flowers they are extremely valuable; the unexpanded blooms opening in water fill the air with the most delicate perfume and last for many days.

	PER DOZ.	PER 100
Refracta Alba. Pure white.....	\$0 25	\$1 50
Leichtlini Major. Creamy white.....	40	2 00

Freessias are easily raised from seed and will flower in six months from time of sowing. Per packet of 100 seeds, 10 cents.

FREESSIA

Narcissus or Daffodils

This is an old favorite especially deserving of notice on account of its easy culture, early flowering and generally effective appearance. Narcissus thrive in any soil and are highly esteemed for their profusion and duration of bloom.

 If ordered by mail please add fifteen cents per dozen for postage

Double			Single		
	EACH	PER DOZ.		EACH	PER DOZ.

Chinese Sacred Lily

(Joss-Flower, or Flower-of-the-Gods)

A variety of the Polyanthus, or bunch-flowered Narcissus. Grown chiefly in water with pebbles for support. The flowers are very fragrant and pretty; pure white, with a yellow center. Flowers in six weeks after planting.

Extra large imported bulbs, 10c. each; \$1.00 per dozen. Postage 5c. each

Eucharis Amazonica

A perfect gem for pot culture; bears large, waxy, snow-white, star-shaped blossoms of great beauty and deliciously fragrant. It is easily grown.

Large flowering bulbs, 35c. each; small, 20c. each

Anemones and Ranunculus

ANEMONES AND RANUNCULUS

The **Anemone** is unsurpassed among spring flowers for brilliancy of color and profusion and duration of blooming. It is of neat, compact growth, with elegantly lacinated foliage and produces in great abundance flowers of the most vivid hues, which have a splendid effect in beds or masses, while for bouquets or table decoration they are invaluable. Any good soil, moderately well drained will answer; plant two to three inches deep and four to six inches apart.

	EACH	DOZ.
Anemones. Double scarlet.....	\$0 05	\$0 50
“ “ blue	05	50
“ Mixed colors	05	50

“ Merveilleuse. Yellow....	05	40	Turban. Mixed	05	30
“ Romano. Bright scarlet..	05	40			

If ordered by mail, please add 25c. per hundred for postage.

Tigridias

The **Tigridia** or “Mexican Shell Flower,” as it is often called, is remarkable for the brilliancy of its gold and scarlet coloring. Its culture is similar to that of the *Gladiolus*, and for summer flowering in the garden, the bulbs should be planted out in the spring. It is one of the easiest plants in the world to cultivate and is sure to flower abundantly in any warm situation.

	EACH	PER DOZ.		EACH	PER DOZ.
Canariensis. Pale yellow, spotted....	\$0 05	\$ 50	Grandiflora Alba. Pearly white, marked at the base with reddish brown spots on a yellowish ground, much admired.....	10	75
Conchiflora. Orange yellow, spotted.	05	50	Pavonia. Red with yellow spots	05	50
Lilacea. Very beautiful rosy carmine flowers, variegated with white....	10	75			

Scilla Siberica

The **Siberian Squill** has flowers of a lovely ultramarine blue color, borne in graceful spikes, produced in great profusion. In the house it blooms early like the *Roman Hyacinths* and forms a beautiful contrast with them. In the open ground they are quite hardy and are specially fine planted in small beds or with *Snowdrops*. 5 cents each; 30 cents per dozen.

Cyclamen

CYCLAMEN PERSICUM

Among the many charming plants which grace the greenhouse and sitting-room window during the Spring and Winter months, few, if any, are so interestingly pretty and accommodating as the Cyclamen; its neat, chaste, graceful, little, elegant flowers, varying from snow-white to crimson, secure for it universal admiration, while the simplicity of its culture brings it within the reach of even those who can command no better accommodation than a sitting-room window. For indoor decoration these plants are indispensable.

Those we offer are the Giant-flowered varieties, and for clear and beautiful colors, massive substance and fine form of flowers are unrivaled. The pretty variegated foliage and bright flowers, together with the long blooming season, render it a favorite wherever known. Plant in light rich soil and water sparingly until it begins vigorous growth.

Strong flowering bulbs, 20 cents each; \$2.00 per dozen.

Seed saved from our Superb Collection, per packet of 20 seeds, 25 cents.

Tuberous Begonias

It is next to impossible to describe in words the marvelous beauty of these magnificent flowering plants, which, with less labor and attention than other bulbs demand, give wonderfully beautiful results. As pot plants they have no equal, but in the garden they are not always a success unless planted in partial shade and protected from winds and storms. All the varieties are gorgeous and bear flowers of an almost incredible size, and for range and delicacy of color far eclipse any other class of plant. They are most at home in a light, loamy soil, and, as already mentioned, require a somewhat shaded location.

Single White

Single Yellow

Single Scarlet

Single Pink

Single Dark Crimson

Single Orange

Price of above, 20c. each; \$2.00 per dozen; \$15.00 per hundred

Single Mixed, all colors, a magnificent strain, 15c. each; \$1.50 per dozen; \$10.00 per hundred.

Double Mixed, all colors, a magnificent strain of finest large-flowered double sorts. They are perfectly magnificent. 30c. each; \$3.00 per dozen.

Gloxinia Bulbs

Like the Tuberous Begonia, bulbs of this handsome and showy plant are in great demand by Florists. They are of the easiest culture, and by careful treatment may be had in bloom at almost any season of the year in our favorable climate. The colors are very numerous, each hue pure and distinct, while many are spotted in a very attractive manner.

Choice Varieties, mixed colors, 20c. each; \$2.00 per dozen

Tropæolum Tricolorum

This is a tuberous-rooted winter-blooming Nasturtium for pot culture, which is one of the most charming window vines one can possess during winter. Pot the bulbs in good soil and treat like other winter bulbs. They are somewhat slow to start, but will after a while throw up little needle-like shoots, which should be supported on strings or trellises. After a short time they will develop beautiful tiny foliage, which will soon be followed by hundreds of brilliant flowers, scarlet, tipped with black and yellow—which keep perfect a long time. 30 cents each.

Lilies

Every one loves the Lily—and well they may, for it stands unrivaled amongst hardy plants, for variety of color and beauty of form. Lilies are of easy culture, and as the bulbs we offer are all home grown, firm and fresh from the ground—not dried up and worthless as is often the case with imported bulbs—there is hardly a chance of failure. Plant from four to eight inches deep according to the size of the bulb. They should remain undisturbed for years, as frequent removals injure the roots.

LILIUM HARRISII

LILIUM TIGRINUM

	EACH		EACH
Auratum (Golden-banded lily of Japan). Pure white studded with rich chocolate crimson spots, and a bright golden band through the center of each petal.....	\$0 20	Hansonii . Flowers outside bright yellow marked with white; inside spotted with purple	\$0 75

		Washingtonianum . Changing from pure white to purple. Very fragrant.....	25

If ordered by mail please add fifteen cents per dozen for postage

Twelve Lillies of any one of above varieties will be sent at price of Ten.

Lily of the Valley

(*Convallaria majalis*)

A BUNCH OF
LILY OF THE VALLEY
GROWN FROM OUR
SELECTED THREE-YEAR-OLD PIPS

This is one of the most charming of spring flowering plants, bearing slender stems set with tiny bells, which diffuse a delicious odor. The growth is close, dwarf and compact, and the plant is hardy and permanent. It is also a most popular plant for forcing. They generally flower in three or four weeks after planting.

These pretty flowers grow in shady places where few other flowers succeed; they bloom freely out-of-doors, and may be had from New Year on, when forced, beginning with a temperature of 45° and increasing very gradually to 65°. If the pots have a little bottom heat during the winter months, they will do better. Select a half dozen of strong, firm pips, with roots attached, for a six-inch pot, and use rich sandy loam. After flowering, they may be planted in the flower border.

Flowering pips, per hundred, \$2.00; each, 5c.; per dozen, 30c.

Strong clumps for planting in the open ground, each, 50c.; per dozen, \$5.00.

Callas

Dwarf Calla "Little Gem." This variety is a true miniature of the old Calla, and when in flower, a perfect specimen plant but eight inches high, with full developed foliage. We know of no plant which will be so surely and universally recognized as unique. A well-grown plant cannot fail to attract the admiration of every flower lover. Price, 20c. each; \$2.00 per dozen, post paid.

Calla Lily (*Richardia Ethiopica*). One of the best known plants and of easy management. 10c. each; \$1.00 per dozen.

Spotted Calla (*Richardia Alba Maculata*). The leaves of this variety are deep green, with numerous white spots, which gives the plant a very ornamental appearance. The flowers are pure white, with a black center. They grow freely, either indoors or out. 15c. each; \$1.50 per dozen.

Black Calla (*Arum Sanctum*). This interesting variety resembles in habit and foliage the White Calla, with flowers of a rich clear coal black color and a most striking oddity. It is a recent introduction and is rapidly finding its way into every collection. Large flowering bulbs 50c. each.

BLACK CALLA

Oxalis

A very pleasing class of small bulbs, producing vast quantities of brilliant flowers during the autumn and winter months; they are especially desirable for planting in hanging baskets and window boxes in which they make a splendid display. They are of easy culture requiring only good soil and plenty of light, under which conditions they succeed well.

Hirta Rosea. Pink	05	60	Oxalis. Mixed, many varieties.....	03	20

SPARAXIS

Sparaxis

A beautiful class of bulbs, allied to the Ixias and requiring the same treatment, producing spikes of most exquisite flowers.

It would be difficult to conceive colors more diversified and magnificent than abound in this family. They will not do out doors in cold climates but are invaluable for greenhouse or parlor culture.

[All colors mixed, per dozen, 30c.; per hundred, \$2.00.

Ixias

The Ixia is a slender graceful growing plant with long, loose spikes of bloom, resembling a miniature Gladiolus. The colors are rich, varied and beautiful, the center always differing in color from the other parts of the flower, so that the blossoms expanding in the sun's rays present a picture of gorgeous beauty. Very desirable for pot culture, but requiring protection where frosts are severe.

All varieties in splendid mixture, per dozen, 30c.;
per hundred, \$2.00.

Snowdrops

A well-known beautiful, early, white flower, loved by all. There is no trouble in growing this modest little plant; merely set them about two inches deep, and one inch apart, in clumps or rows. Double, 30c. per dozen; \$2.00 per hundred. Single, 25c. per dozen; \$1.75 per hundred.

Pæonies

Well-known, showy, border plants, of many brilliant colors; some of the varieties being deliciously fragrant.

	EACH	PER DOZ.		EACH	DOZ.
Herbaceous Varieties. Mixed	\$0 30	\$ 3 00	Tree or Japanese. Mixed.....	1 25	12 00

Water Hyacinth

THE WATER HYACINTH.

This beautiful plant differs from any other water plant in foliage, and produces orchid-like flowers about two and a half inches in diameter; color, delicate lilac, shaded with rose, with an orange spot on the upper petal. It can be grown in the open air in summer and in the window in winter. The plants will thrive in any vessel of water placed in the sun. The most beautiful effect is produced by using a glass vessel of some sort, with shells and white sand so arranged in the bottom as to conceal a small amount of soil. The plant is easily grown, so attractive and different from other plants, that it is sure to greatly interest every one. 15 cents each; \$1.50 per dozen.

Nymphæa Odorata Gigantea

(Water Lily)

A gigantic form of the white pond Lily. Flowers pure white, with a golden center three times as large as the common pond Lily, and more cup-shaped. The flowers also possess a distinct and charming fragrance. It is perfectly hardy, and a grand plant for tubs, pools, streams or ponds. 20 cents each; \$2.00 per dozen.

Brodiaëas

Highly ornamental Californian bulbs, producing erect and slender leafless stalks from one to two feet high, upon which are borne clusters of strikingly beautiful lily-like flowers. Few bulbous plants are more reliable bloomers than Brodiaëas or more readily adapt themselves to any soil or situation.

	EACH.	DOZ.		EACH.	DOZ.
Brodiaëa Coccinea (Floral Firecracker).			Brodiaëa Volubis (Twining Hyacinth).		
Crimson red, lip vivid green.....	\$0 05	\$0 25	Delicate rose-pink flowers.....	\$0 10	\$1 00
Brodiaëa Grandiflora. Dwarf habit,			Brodiaëa Lactea. Flowers are milky		
purple waxy flowers, very showy....	05	25	white.....	05	25

Calochortus

(Mariposa or Butterfly Tulips)

An extremely beautiful class of plants, natives of California. They have erect cup-like flowers of large size and of varied and brilliant colors, borne on stiff slender stalks eight to twenty inches high, with from six to twenty flowers on a stalk. For pot culture they are superb, and in a light rich deep soil are easily cultivated out of doors. They thrive in cold climates when given slight protection during winter.

Splendid mixture of many varieties, 25 cents per dozen; \$1.50 per hundred.

Montbretia

Magnificent decorative plants, producing long branching spikes of Gladioli-like blooms, two to three feet high, in the most delicate and richest shades of yellow, orange and scarlet.

5 cents each; 50 cents per dozen.

Dielytra or Bleeding Heart

The most elegant of all forced plants for conservatory and room decoration, also to cut for furnishing vases. The graceful pendant branches are loaded with beautiful red heart-shaped flowers, and furnished with the most delicate rich green foliage. In shrubberies or herbaceous borders, few plants in summer are so attractive.

Strong roots, 20 cents each; \$2.00 per dozen.

Iris

(Fleur de Lis)

The Iris is the "Orchid" of the flower garden. The blossoms of the Flag Iris are the most rich and varied in color of hardy plants, and should be extensively planted in flower and shrubbery borders, and naturalized in wild gardens. As a cut flower these Irises are invaluable, competing in richness and variety of color with the choicest and the most beautiful Orchids; useful as cut flowers as they last a long time in the water.

Tritoma Uvaria Grandiflora (Red-Hot-Poker-Plant). Striking and attractive plant, throwing up stalks three to five feet high, bearing large solid spikes of brilliant orange-scarlet colored flowers of great size and brilliancy.....	25	2 50
Tropæolum Tricolorum Jarrattii. Fine greenhouse climber.....	20	2 00
Tuberoses (Dwarf Pearl). This delightfully fragrant pure white wax-like flower is too well known to require further description, its purity of color and rich perfume have gained it esteem. Our bulbs are Eastern grown, ready for delivery in November.....	05	50
Zephyranthes. Gems of rare beauty, producing freely either in pots or the open ground, pretty lily-like flowers of the style of Amaryllis. Many varieties mixed.....	05	40

Sweet Peas

Sweet Peas attain in California a perfection almost unheard of in other parts of the country; the size, color and texture of the flowers and the vigor of growth being truly remarkable. In addition, the vitality of our California seed is from 30 to 60 per cent. higher than that of the best English. These, with other advantages, first induced us to become Sweet Pea specialists. The acreage has been increased until we now rank among the largest growers of Sweet Pea Seed in the world.

Plant the seed in good garden soil from October to April at intervals for succession. Do not allow them to suffer for water, and give some slight support. Cut the flower spikes freely, as the maturing of seeds greatly shortens the blooming season.

The latest novelties and all the standard varieties worth growing will be found in the following list.

- Alba Magnifica.** Pure white, pkt., 5 cts; oz., 20 cts.
- Apple Blossom.** Pink and blush, pkt., 5 cts; oz., 15 cts.
- Blanche Ferry.** Pink and white, pkt., 5 cts; oz., 15 cts.
- Boreatton.** Crimson purple, very dark, pkt., 5 cts; oz., 15 cts.
- Butterfly.** Pale grey with distinct porcelain edge, pkt., 5 cts; oz., 15 cts.
- Captain of the Blues.** Bright purple and pale blue, pkt., 5 cts; oz., 15 cts.
- Captain Clark or Tricolor.** White, shading to pink, edged with indigo, pkt., 5 cts; oz., 15 cts.
- Cardinal.** Crimson scarlet, pkt., 5 cts; oz., 15 cts.
- Countess of Radnor.** Lavender, pkt., 5 cts; oz., 15 cts.
- Delight.** White, crested with crimson, pkt., 5 cts; oz., 15 cts.
- Dorothy Tenant.** Dark mauve, pkt., 10 cts; oz., 25 cts.
- Duchess of Edinburgh.** Scarlet, flushed with crimson, pkt., 5 cts; oz., 15 cts.
- Empress of India.** Rosy pink standards, white wings, pkt., 10 cts; oz., 25 cts.
- Emily Henderson (Novelty).** White, pkt., 10 cts; oz., 25 cts.
- Fairy Queen.** White, flushed and feathered with pink, pkt., 5 cts; oz., 15 cts.
- Her Majesty.** Beautiful rosy pink, pkt., 10 cts; oz., 25 cts.
- Ignea.** Fiery crimson scarlet, slightly flushed with purple, pkt., 10 cts; oz., 25 cts.
- Isa Eckford.** Creamy white and rosy pink, pkt., 5 cts; oz., 15 cts.
- Lemon Queen.** Blush and lemon, pkt., 5 cts; oz., 20 cts.
- Miss Hunt.** Carmine salmon and soft pink, pkt., 10 cts; oz., 25 cts.
- Monarch.** Bronze, crimson and blue, pkt., 5 cts; oz., 15 cts.
- Mrs. Eckford.** White, delicately shaded with primrose, pkt., 10 cts; oz., 25 cts.
- Mrs. Gladstone.** Delicate soft pink with rosy blush wings, pkt., 5 cts; oz., 15 cts.
- Mrs. Sankey.** The purest white, the most perfect form, the largest size, a profuse bloomer, pkt., 5 cts; oz., 15 cts.
- Nellie Jaynes.** White and light pink, pkt., 5 cts; oz., 15 cts.
- Orange Prince.** Orange pink, flushed with scarlet, pkt., 10 cts; oz., 25 cts.
- Painted Lady.** Rosy crimson and blush white, pkt., 5 cts; oz., 15 cts.
- Primrose.** Pale primrose yellow, novel and distinct, pkt., 10 cts; oz., 25 cts.
- Princess Louise.** Rosy pink standards, wings deep lilac, pkt., 5 cts; oz., 15 cts.
- Princess Victoria.** Cherry, mauve and pink, pkt., 10 cts; oz., 25 cts.
- Princess of Wales.** White, striped with lavender and mauve, pkt., 5 cts; oz., 10 cts.
- Purple Prince.** Maroon, shaded with purple, wings blue, pkt., 5 cts; oz., 20 cts.
- Queen of England.** White, of large size, pkt., 10 cts; oz., 25 cts.
- Red and White Striped.** Pkt., 5 cts; oz., 15 cts.
- Senator.** Chocolate and creamy white, pkt., 5 cts; oz., 15 cts.
- Splendor.** Coppery crimson, suffused with rosy pink, pkt., 5 cts; oz., 15 cts.
- The Queen.** Bright pink, shaded with heliotrope, pkt., 5 cts; oz., 15 cts.
- Vesuvius.** Carmine rose, shading to velvety violet, pkt., 5 cts; oz., 15 cts.
- Waverly.** Pale blue and rosy claret, pkt., 10 cts; oz., 25 cts.
- New large flowered.** Mixed, pkt., 5 cts; oz., 10 cts.

We will forward free by mail one packet each of the above thirty-nine choice and distinct varieties of Sweet Peas for Two Dollars.

A Botanical Curiosity

The Resurrection Plant or Bird's Nest Moss. In a dry state this plant resembles a ball of apparently dry and lifeless moss, which upon immersing the roots in cold rain water, or placed in a wine glass filled with water, will in a few hours be transformed into a beautiful green moss fern. The experiment can be repeated many times.

Price by Mail postage prepaid, 10 cents each ; \$1.00 per dozen

Mushroom Spawn

Culture—Mushrooms may be grown in cellars, under benches of greenhouses or in sheds, wherever a uniform temperature of 50 degrees can be maintained. The beds should be made according to the time the Mushrooms are wanted, and it requires about two months for them to begin bearing. Secure fresh horse-dung, free from straw and litter, and mix in an equal bulk of loam from an old pasture with it. Keep this under cover, taking care to turn it every day to prevent heating, until the pile is large enough to make a bed of the required size. Three or four feet wide, eight inches deep, and any length desired, are the proper proportions for a bed ; but these may be varied. Prepare the mixture of loam and manure, making the bed in layers, and pounding down each with the back of the spade. Leave this to heat through for a few days, and as soon as the heat subsides to 90 degrees, make holes in the bed about a foot apart each way, into which put pieces of the spawn two to three inches in diameter; fill up the holes with the compost, and at the expiration of a week or ten days the spawn will have thoroughly diffused itself through the bed. Spread a layer of fresh soil over the heap to the depth of two inches, and cover with three or four inches of hay, straw or litter. Examine the bed often to see that it does not get dry. Take special care, however, when water is given that it be at a temperature of about 100 degrees.

Fuller instructions on the management of this crop will be found in "Mushroom Culture," by W. Robinson, which will be sent free by mail for fifty cents. Our spawn can be thoroughly depended on and being specially manufactured for us is fresh and reliable at all times.

English Spawn. In bricks weighing 1½ lb. each\$ 0.20 \$18.00
French Spawn. In 3-lb boxes, per box, \$1.50; In bulk..... 50

Garden Roots

Artichoke. Green Globe, 2 year old roots; each, 15 cts; doz., \$1.50.	Hop Roots. Per doz., 50 cts.
Asparagus. Conover's Colossal, 2 year old roots; per 1000, \$10; per 100, \$2.	Horse Radish. Per doz., 50 cts.
Palmetto (new), 2 year old roots, per 100, \$2.25.	Rhubarb. Myatt's Linnæus, each, 25 cts; doz., \$1.50; per hundred, \$12. Lorenzo, each, 50 cts; doz., \$3.00.

Fertilizers

We supply only high grade reliable fertilizers, goods that we know to be as represented; and, quality considered, prices are unusually low.

	Per 100lbs.	Per ton
Ground Bone	\$2 50	\$35 00
Pure Guano Flour. —Guaranteed to contain 48 to 50 per cent bone phosphate (the same as pure bone-meal) and 1½ per cent. ammonia.....	2 25	30 00
Plain Superphosphate —Or dissolved guano (guano treated with sulphuric acid) containing about 16 per cent. available phosphoric acid and 1 per cent. ammonia.....	2 50	40 00

Lawn Fertilizer.—Unless thoroughly decomposed, stable-manure is not desirable, because of the number of weed-seeds contained in it. Our **LAWN FERTILIZER** possesses the requisite properties to induce a rapid, luxuriant growth, and should be sown broadcast at the rate of 1,500 pounds per acre. A 10-pound package is sufficient for 300 square feet.

Price per ton, \$45.00; per 10-lb package, 75 cents.

Bowker's Flower Food

Is an odorless, chemical preparation, containing the same fertilizing elements as stable manure, in a perfectly clean and soluble form. It is not a stimulant, but a perfect food for the plants, in a concentrated, easily assimilable form. It produces healthy foliage, abundant, rich and bright-colored blossoms, and prolongs the period of blossoming; and a pinch added to a vase of cut flowers will preserve their beauty and fragrance for at least forty-eight hours longer than if none were used. Full directions for using are in each package.

Package by mail, Postpaid, 50 cents.

Insecticides

Grape Dust. A non-poisonous compound powder for the remedy of mildew and rot on grapes, gooseberries, roses, flowers or plants. It is economical, clean and effective and used by many of the largest commercial florists.

Per 5 lb. package, 50 cents.

Slug Shot. A cheap, popular and effective insecticide, easily applied and not injurious or dangerous to animals.

5-lb. package, 50 cts.

Fir Tree Oil. The best insecticide for indoor use on all plants; is also a valuable remedy for animal parasites and insects.

Per pint \$1.00

Stott's Fir Tree Oil Soap

This new and wonderful compound is a most useful article to have about the house. By its use you can keep your plants free from all insects. You can keep your dogs free from fleas and their skin healthy, coat glossy, and destroy all offensive odors about them. You can keep your poultry free from lice. You can keep the skin of your horse healthy and make him shine. One ounce makes one gallon.

½ pound tins 25 cents each. By mail 35 cents.

Whale Oil Soap. Excellent wash for trees and plants to prevent insects from lodging in the bark, and for smearing on the trunks of trees to prevent worms from crawling up.

Per 1-lb. tins, 20 cts.; in bulk, in quantities of 10 lbs. or over, 10 cents per pound.

Nursery Department

A brief mention under this heading of our standing and progress in the General Plant World at this time will not be out of place. We have added quite a number of excellent New Roses, deciduous Shade Trees, Shrubs, etc., etc., to our already large collection, so that we are on a footing with other extensive establishments.

Following will be found prices of some leading varieties. It is yet too early to make out a general list. This, however, will be issued early in the month of January, 1895.

Roses

The attention of growers and lovers of Flowers is drawn to the fact that our Stock in this line is large and varied, and whilst we already grow all the best old varieties, we are continually adding to our list, such new sorts as are full of merit and command a ready sale.

They can be had from the open ground and pot-grown. The latter can be planted at almost any season, and those from the open ground any time after November 1st. We also have a number in Standard or Tree form.

Palms

The praises of this favorite decorative plant have already been well sung, but we may say that our stock of such plants is still very fine and we have to offer the perfectly hardy as well as the tender house variety.

Fruit Trees

This is the department that needs the closest attention at the present time. Intending planters would do well to write for prices and full particulars of our stock, previous to purchasing elsewhere, as we are prepared to meet their wants in every particular.

A full list of varieties and prices will be included in our General Catalogue.

The following is a list and prices of Shrubs, Trees, Palms, etc., which we have to offer now, grown in pots, and ready for immediate shipment:

Morris Poultry Cure

A Sure Preventive and Positive Cure for all Diseases of Poultry.

Warranted to be a sure cure for Diphtheria, Sore Eyes, Swelled Head, Roup, or Cholera Scaly Legs, or any kindred diseases of Chickens, Turkeys, Guinea Fowls, Ducks or Geese, Ostriches, Mocking Birds, Canary Birds, etc., etc., when given according to directions.

The remarkable success of the Morris Poultry Cure has caused a host of bogus nostrums, called Poultry Powder, Poultry Tonic, etc., etc., to be placed on the market. Beware of such. Insist on having the genuine Morris Poultry Cure, and take no other.

Price 25 cts., 50 cts. and \$1.00 per package.

Manhattan Egg Food

It assists fowls in laying eggs when most desired and when eggs are high. The return in eggs will more than pay for the cost of the Manhattan, aside from the promotion of the health of the fowls. For moulting fowls and young chickens, nothing can compare with this as a tonic. In forming bone, muscle and shell it is infallible. It acts as a relish, promotes perfect digestion, thereby causing a rapid growth of the fowl.

Price—1-lb. box, 25 cents; 2-lb. box, 40 cents.

Selected Grass and Clover Seeds

The grass and clover seeds offered by us are all of the best grades, and have been specially re-cleaned to meet the demands of our critical trade. Prices for large quantities will be quoted on application. This is more satisfactory than quoting here, as prices are subject to frequent changes with market fluctuations.

IF ORDERED BY MAIL, ADD 8 CENTS PER POUND POSTAGE.

Grass Seed.

Menlo Park Lawn Grass. We devote great care to the preparation of this article, and by careful tests have proved its superiority over all other mixtures. It is composed of the very choicest selected fancy cleaned grasses, entirely free from seeds of weeds, and we can with confidence recommend it to those who wish their lawns to present an evergreen, carpet-like appearance. Price per pound, 30 cents. For the convenience of those who require only a small quantity of seed, MENLO PARK LAWN GRASS is put up in boxes containing sufficient for 300 square feet. We forward these boxes, free by mail, at 25 cents each.

	Per lb.
Kentucky Blue Grass, Fancy Clean (<i>Poa Pratensis</i>). This is the best pasture grass for our climate and soil, and produces the most nourishing food for cattle; although it yields herbage early, it requires several years to become well established as a pasture grass.....	\$ 0 25
Orchard Grass (<i>Dactylis glomerata</i>). The most valuable and widely known of all pasture grasses, coming earlier in the spring and remaining longer than any other; it is well adapted for sowing under trees, and valuable either for grazing or for hay.....	25
Red-Top (<i>Agrostis vulgaris</i>). A valuable permanent grass for meadows or lawns, growing in almost any soil, moist or dry, and standing heat well.....	12
Red-Top Absolutely Clean. Cannot be surpassed in quality.....	20
Rye Grass, Perennial. Enters largely into the composition of many of the richest pastures, and is one of the most nutritious of the permanent grasses.....	15
Rye Grass, Italian (<i>Lolium Italicum</i>). Similar to the preceding, but of more rapid growth, which is its chief merit.....	15
Timothy (<i>Phleum pratense</i>). Well-known and extensively grown; very productive, and thrives on almost any soil, and on a moist clay will produce a larger crop than any other grass.....	10

Clover Seed.

Alfalfa or Lucerne (<i>Medicago sativa</i>). Succeeds well in almost any location, and lasts for a number of years; it grows two or three feet high, and the roots extend deeply into the soil, which enables it to resist the severest drought; it produces heavy crops of nutritious foliage, which may be cut three or four times a year, the best time being just when commencing to bloom.....	15
Alsike (<i>Trifolium hybridum</i>). Thrives well on rich, moist soils, and yields an enormous bulk of forage much preferred by cattle; may be cut several times a season, and as an addition to mixtures for permanent pastures has no superior.....	30
Japan Clover (<i>Lespedeza striata</i>). A branching perennial, growing about twelve inches high, and in warm latitudes will do well in any soil, even during extreme drought; more nutritious than Red Clover, and makes excellent hay.....	40
Medium Red (<i>Trifolium pratense</i>). A well-known standard; excellent for pasturage or hay, and should be in all grass mixtures. If sown alone, ten pounds per acre is required.....	15
White Dutch (<i>Trifolium repens</i>). A spreading perennial; valuable for pastures and lawns; it accommodates itself to a variety of soils, but prefers moist ground; is excellent food for bees.....	30
